Dear Mr. Misof,

Due to continuing input cost increases and unsustainable profit levels, Sappi is forced to continue passing on this cost inflation by increasing its WFC and WFU in sheets and reels by 6-8% effective on deliveries from April 2nd 2018 for all European and Overseas markets.

Despite strong order books margins continue to be depressed by this severe input cost inflation. Our sales colleagues will be in touch with You to agree on the specifics over the following weeks.

Best regards,

Thomas Lang
